Welcome!

Dear

Thank you for your interest in partnering with Electronic Payments. We believe small to midsize businesses deserve a payment processing and point of sale partner who puts their success and needs first. Our mission is to provide growing businesses with innovative payment processing services that are affordable, reliable, and backed by friendly and knowledgeable in-house support teams.

We understand what it's like to launch and run a business, and how important it is for the tools and support you rely on to work as hard as you do. For over 20 years, we've been helping businesses like yours simplify payments. As leaders in one of the most dynamic and rapidly evolving industries, we're committed to offering new, cutting-edge technology to help our partners succeed. It's why we continuously develop and support new payment and POS solutions in-house, fueled by merchant feedback and requests.

Because of our strong partnerships with merchants, we've been able to build a stable, growing company. It's only together that we succeed. We offer fair and equitable pricing, with clear costs and no hidden fees. We even created a Customer Bill of Rights outlining our commitment to our partners. It's our belief that to be successful, we must always be honest, respectful, and act with integrity.

Our team's passion, dedication, knowledge, and experience continue to elevate our company and our merchant partners. If you have questions or would like to discuss our capabilities in further detail, please do not hesitate to contact us. We look forward to working with you!

What Makes Electronic Payments Different From Other Service Providers?

Like you, we're entrepreneurs who understand the needs of business. It's why we take a personal approach to payments, investing in the growth and success of each of our employees to create a team of talented individuals who are passionate about payments and committed to serving your needs.

In-house Approach

By offering a completely in-house experience, we ensure the highest quality of products and exceptional service. Because we don't outsource anything, we can quickly respond to your needs, whether it be an account inquiry or a technical issue.

We also take pride in developing and deploying our own payment and POS solutions. Our knowledgeable teams have years of industry experience, and can rapidly troubleshoot and quickly deploy equipment swaps if the situation warrants. That means you don't have to wait for a third party to provision and ship new equipment, which can take weeks. Electronic Payments can have your business back and up and running in a fraction of the time!

Unparalleled Support

When we say unparalleled, we mean highly trained, personable team members who stand ready to help. Our in-house experts are there when you need them most, answering your questions and resolving issues in record time. You can rest assured knowing your business is backed by skilled, in-house technical support professionals available 24/7.

Commitment to Our Merchant Partners

We believe in being honest and up-front—and having a direct relationship with our merchants. We offer fair, affordable, and transparent pricing, and are committed to providing secure processing.

Custom Solutions Tailored to Your Business

We work with our merchants from the ground up to pinpoint their needs and provide solutions that complement their business plans. Our team of product specialists are on standby to give you an inside look at our payment and POS solutions so you can determine which tools will best meet your needs.

When you partner with Electronic Payments, you can take advantage of:

Next Day Funding
